Success Stories

Nelson Mauricio

Acting Chief Financial Officer | City of Cockburn

"The City's complex ERP cloud migration project needed a disciplined project management approach to ensure its success. SP from Bhani Consulting was engaged to lead delivery of this critical project and brought his many strengths to the table. A key and consistent theme throughout the whole project was the clarity provided by SP to the project team and steering committee. He made the complex and ambiguous simple, supporting effective decision making. SP was highly engaging and collaborative throughout the project, providing positive energy and motivational spirit when needed. On time, on budget and on point, thank you SP."
