

# ERP Assurance & Recovery Services

Clarity. Confidence. Continuity.

When ERP investments stall, underdeliver, or feel uncertain—Bhani steps in. Our suite of strategic services helps organisations de-risk ERP decisions, rescue struggling implementations, and uncover blind spots before they become costly failures. Whether you're preparing for a major system change or already mid-flight, Bhani Consulting brings the clarity and control you need to move forward with confidence.

## Bhani Diagnostics™

We identify your business needs, pain points, and goals, then deliver a strategic roadmap with current state analysis, gap identification, and ERP/digital readiness insights.

### Deliverables:

- Organisational Health Check
- Current State Analysis
- Gap & Risk Identification
- Strategic Roadmap
- Readiness Report

## BHANI CONSULTING

Your Digital Partner for Achieving Growth

## Bhani Rescue™

We step in when projects stall, systems underdeliver, or teams are overwhelmed—stabilising critical initiatives and getting them back on track fast.

### Deliverables:

- Project & System Health Check
- Root Cause Analysis
- Risk Mitigation Plan
- Rapid Recovery Roadmap
- Stakeholder Re-Alignment

## Bhani Assure™

We ensure your technology investments deliver ongoing value through continuous monitoring, optimisation, and strategic guidance—maximising ROI long after go-live.

### Deliverables:

- Performance Monitoring & Reporting
- Process Optimisation Reviews
- Risk & Compliance Checks
- User Adoption & Training Support
- Continuous Improvement Roadmap
