

ERP end-to-end Journey

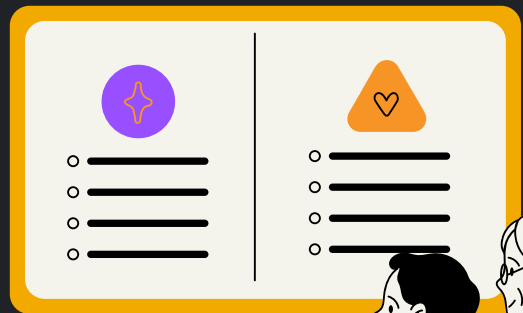

Bhani Consulting's ERP journey is a structured, end-to-end service offering designed to support businesses through ERP transformation—from planning to optimisation—ensuring clarity, control, and measurable results throughout the process.

Bhani Blueprint™ Discovery & Strategy

Understand business needs, pain points, and goals. Deliver a strategic roadmap including current state analysis, gap identification, and high-level ERP requirements.

Deliverables:

- Business Process Review
- Current State Assessment
- Future State Vision
- ERP Readiness & Strategy Report

Bhani Select™ ERP Evaluation & Selection

Conduct software-agnostic vendor assessments to identify the best-fit ERP based on business needs, budget, and long-term goals.

Deliverables:

- Detailed Requirements Matrix
- Market Scan & Shortlisting
- Vendor Demonstration Coordination
- Selection Report with Recommendation

Bhani Launch™ Pre-Implementation Readiness

Prepare the organization for ERP implementation by aligning people, processes, and technology. Identify risks and ensure change readiness.

Deliverables:

- Change Management Plan
- Data Readiness & Cleansing Strategy
- Resource Planning & Governance Structure
- Implementation Risk Register

Bhani Deliver™ Implementation Management

Project manage and support the ERP implementation end-to-end, ensuring timely delivery, scope control, and business alignment.

Deliverables:

- Project & Change Management Support
- UAT Planning & Execution
- Cutover Planning
- Go-Live Support & Issue Resolution

Bhani Stablise™ Post-Go-Live Optimisation

Ensure continuous improvement and long-term ROI by optimising ERP usage and supporting business adaptation.

Deliverables:

- Post-Implementation Review
- Continuous Improvement Plan
- Training & Adoption Support
- Optimise use of ERP asset
